

# Seesaw Privacy, Safety and Security

Protecting your privacy is fundamental to our mission and business. The following summarize our promises to you.

We never sell your data or student data.

We will never sell or rent your data or create profiles of Seesaw users to sell. Our business model is straightforward: we charge schools and districts for optional, additional features on top of our free product.

We never advertise in Seesaw.

We have no interest in advertising in Seesaw. Again, our business model is straightforward: we charge schools and districts for optional, additional features on top of our free product.

We don't own the content you add to Seesaw.

Students and their schools own the work added to Seesaw. If you'd ever like to save your content elsewhere or use a different product, you can download what you've added to Seesaw to your computer or mobile device. You can also delete your account at any time and we will permanently delete your account and all associated data within 60 days.

Student work is private to the classroom by default.

Teachers control what is shared and with whom. Unless teachers choose to share, no student work is visible outside of the classroom. Teachers can choose to invite family members to see the work their child has added to Seesaw or post some items more publicly (such as to a Seesaw blog).

We use the latest security industry best practices to protect you.

This means we do things like provide secure communication with our servers at all times, encrypt journal content at rest, and run regular 3rd party security audits to make sure your information is secure. Read more about how we keep student data safe at [help.seesaw.me](https://help.seesaw.me).

We are transparent about our practices, and will notify you if things change.

We strive to make our policies easy to understand. If anything substantial were to change with our privacy practices, we would let you know. The privacy policy and terms you agreed to will still apply unless you accept new terms.

We are compliant with FERPA, COPPA and GDPR.

Seesaw is compliant with these important laws so it's safe to use Seesaw in the classroom.

Read our full Privacy Policy on our website at [seesaw.me/privacy](https://seesaw.me/privacy).
